As a board eligible orthopaedist, **Dr. Mary Beth Deering** specializes in orthopaedic surgery with special training in pediatric orthopaedics. Dr. Deering adds even greater depth to Rocky Mountain Orthopaedic Associates' medical team, while expanding our services to include children's orthopaedic care.

Areas of Medical Concentration:
General Orthopaedic Surgery

As a general orthopaedist, Dr. Deering is devoted to the diagnosis, treatment, rehabilitation and prevention of injuries and diseases of the musculoskeletal system. In a single day, she may treat patients with a variety of conditions including fractures, torn ligaments, arthritis, osteoporosis, bone tumors, ruptured disks, pulled muscles, and lower back pain.

Areas of Medical Concentration:
Pediatric Orthopaedic Surgery

Because children are not just small adults and often cannot explain what is bothering them, Dr. Deering has received additional training in pediatric orthopaedics to help her examine and treat children in a way that makes them relaxed and cooperative. Pediatric Orthopaedics focuses on treating musculoskeletal disorders in children from infancy to 18 years of age, including, but not limited to: scoliosis, clubfoot, fractures, cerebral palsy, pediatric sport injuries, spina bifida and musculoskeletal growth disturbances.

Rocky Mountain Orthopaedic Associates

Rocky Mountain Orthopaedic Associates, P.C. (RMOA) is the largest and most comprehensive orthopaedic group between Denver and Salt Lake City. RMOA has served western Colorado and eastern Utah since 1950, and is the best choice for bone, spine, joint and muscle care in the region. RMOA provides consultations and surgery for musculoskeletal conditions, joint replacements, sports medicine, hand and microvascular reconstructive surgery, and spine surgery. Last fall, RMOA introduced specialized care for areas of osteoporosis, rheumatoid arthritis, lupus and other autoimmune diseases. Also, RMOA institutes advanced care in physical medicine and rehabilitation, and pediatric orthopaedics.

The physicians and staff of RMOA are dedicated to being the providers of choice for anyone on the Western Slope with a fracture or an orthopaedic problem. We will always strive to be responsive to patients and referring physicians and be known for both our service and compassion. Through ongoing medical education and training, as well as recruitment of subspecialty trained surgeons, we will endeavor to provide a full range of expert orthopaedic care.

The RMOA physicians, staff and family members are proud members of the local community who realize that our patients are special people – our friends and neighbors.

Practice Philosophy:

The ultimate purpose of all work in a medical office is helping patients. Every staff member is an integral part to making this happen. Teamwork and cooperation will be a cornerstone of our practice. Everyone's one focus must be on providing the best possible care and service for all patients.
